Investigation and Evidence 3-14

Investigation and Evidence 7

Oswald, Lee H. Post-Assassination Period 2-1

May 1, 1964

MEMORANDUM TO: Mr. Eisenberg

FROM: Mr. Liebeler

SUBJECT: A. Johnson Exhibit #7

Attached is Exhibit #7 on the examination of Arnold Johnson taken April 17, 1964 in New York. Exhibit #7 is an undated 3-page letter from Oswald to Johnson. The letter was enclosed in the envelope which is a part of the exhibit. The envelope was postmarked at Dallas, Texas on November 1, 1963.

Mr. Johnson says he did not receive the letter until November 29, 1963, after the assassination. Johnson raised some question on his examination as to the authenticity of the letter, suggesting that it might have been written by somebody else and sent to him probably for the purpose of tying Oswald more closely with the Communist Party. It seems quite clear that no one but Oswald could have written the letter because of the facts set forth in it. In any event it seems that we should submit the letter to a handwriting expert to determine whether it was written by Oswald.
